

Leo Paper

"The Largest Commercial and Package Printer of China"

Home of 25,000 employees under one roof, a rather large village. Over 100 printing presses in one location.

"Truly an amazing place" - states Mike King President & CEO of Eagle System who personally passed the Eagle CFM from his staff to the Leo Group.

EAGLE SYSTEMS Cold Foil was installed this past week on KBA 105 6C 2006 series. What was important to LEO was complete samples made in both conventional and UV cold foil format. This was accomplished all in a 2 day install and testing on day 3. CM Yeung and the other management team of LEO expressed to the Eagle technicians, were the most professional they have seen.

A Second Eagle Cold Foiler has also been in May 2014 on a brand New KBA 105 8C
The sales effort were handled in joint effort by Wealthy Printing Equipment of Hong Kong and KBA China

Mr. CM Yeung again states the most professional technical installation crew!
They know cold foil.
