Bellwyck Packaging Solution

A High End Luxury Packaging Company located in Toronto, Ontario
Installs an Eagle Systems Cold Foil
on their Manroland 700

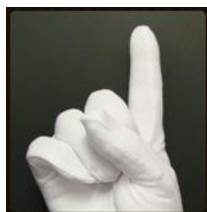

Left to right:
Mike King - President/CEO Eagle Systems
Jerry Malfara - Operations Manager Bellwyck Packaging Solutions

One of Jerry's concerns getting into the cold foil market was foil dust.

His question to Mike King....
"What vacuum system do you use for the foil dust?"

Mike King's response....
"Foil dust is voids in your end product and
Eagle does not make Cold Foil dust due to its tension free foil path.
We don't need a vacuum!!!!!!!!!"

NO FOIL DUST

We Welcome Bellwyck Packaging Solutions to our Eagle Family
